No Pomade required.

From its great nourishing power on the follicles it may in time cause Hair to return to its natural color; it, however, does not contain a particle of any dyeing ingredient. Using it constantly will most certainly prevent the Hair falling. It is cleanly in use, the smallest quantity sufficing. It has no acdiment, and therefore requires no shaking.

Whether he may make up his army elsewhere to that number I cannot say, but the number taken from this place. when all have sailed, will amount to twentyfive battalions, or say 12,500 men. Let us hone that their wish may be realised. Whatever may be the result of the negotiations between Russia and China, it is clear that China is making a desperate effort to be prepared for the worst. In this course doubtless both the old Conservative and modern Liberal parties in the Empire are thoroughly united. The concentration of a formidable army—formidable at least in numbers, if not in equipment and efficiency around Peking may prove one thing, namely, that China does not intend tamely to yield her rights at the bidding of her northern neighbour. She means to be prepared, if necessary, to resist the Russian demands by force, if these demands are pushed beyond the bounds of equity and igatice. THE CHINA REVIEW.

THE widely-expressed regret at the discontinuance of Notes & Queries on China and Japan, has induced the publishers of this journal to issue a publication similar in object and style, but slightly modified in certain details. THE CHINA REVIEW, or Notes and

Queries on the Far East, is issued at intervals of two months, each number containing about 60 octavo pages, occasionally illustrated with lithographs, photographs, woodcuts, &c., should the papers published demand, and the circulation justify, such extra matter. The subscription is fixed at \$6.50 postage

paid, per annum, payable by non-residents in Hongkong half-yearly in advance. The publication includes papers original and selected upon the Arts and Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Manners and Customs, Natural History, Religion, &c., &c., of China, Japan, Mongolia, Tibet, the Eastern Archipelego and the "Far East" generally. A more detailed list of subjects | The Clock Tower, Queen's Road Cenupon which contributions are especially invited is incorporated with each number. Original contributions in Chinese, Latin, French, German, Spanish, Italian or Portuguese, are admissible. Endeavours are made to present a resumé in cachnumber of the contents of the most recent works bearing on Chinese matters. Great

department. Notes and Replies are classified together as "Notes" (head references being given, when furnished, to previous Notes or Queries), as are also those queries which though asking for information, furnish new or unpublished details concerning the matter in hand. It is desirable to make the Queries proper as brief and as much to the point as possible.

attention is also paid to the Review

The China Review for July and August, 1875, is at hand. It says that forty-two essays were sent in to compute for the best paper on the advantages of Christianity for the development of a State. All our learn-~ed societies should subscribe to this scholarly and enterprising Review. It is a sixty paged, bi-monthly, repertory of what scholars are ascertaining about China. The lecture on Chinese Poetry in this volume is alone worth the price of the heview. Address China Review, Hougkong.-Northern

Christian Advocate (U.S.) Trubner's Oriental Record contains the following notice of the China Review :- " This is the title of a publication, the first number of which has lately reached us from Hongkong, where it has been set on foot as in some respects a continuation of Notes and Queries on China and Japan, the extinction of which useful social a year or two ago has been much regretted in Europe as well as in China. Thepresent publication, judging by the number now before us, is intended to occupy a position, as regards China and the neighbouring countries, somewhat similar to that which has been filled in India by the Calcutta Review. The great degree of avtention that has been bestowed of late years upon the investigation of Chinese literature, antiquities, and social developments, to say | Queen's Road Central. ne hing of linguistic studies, has led to the accumulation of important stores of information, rendering some such channel of publicity as is now provided extremely desirable; and contributions of much interest may fairly be looked for from the members of the foreign consular services; the Chinese Customs' corps, and the missionary body, among whom a high degree of Chinese scholarship is new assiduously cultivated, and who are severally represented in the first number of the Leview by papers highly

creditable to their respective authors. In m paper on Er. Legge's She King, by the Rev. E. J. Eitel, to which the place of bonour is deservedly given, an excellent summary is presented of the chronological problems and arguments involved in connexion with this important work. Some translations from Chinese novels and plays are marked by both accuracy and freshness of style; and an account of the career of the Chinese poet-statesman of the eleventh century, Su Tung-p'o, by Mr. E. C. Bowra, is not only historically valuable, but is also distinguished by its literary grace. Beside notices of new books relating to China and the East, which will be a useful feature of the Review, if carried out with punctuality and detail, we are glad to notice that "Notes" and "Queries" are destined to Four Coolies, find a place in its pages also. It is to be hoped that this opening for contribution: on Chinese subjects may evoke a simila degree of literary zeal to that which was displayed during the lifetime of its prede cessor in the field, and that the China Revier may receive the support necessary to insurits continuance. The publication is intend ed to appear every two months, and wil

This paper is now issued ever day. The subscription is fixed at Four Dollars per annum delivered in Hong kong, or Seven Dollars Fifty Cents in cluding postage to Coast ports.

It is the first Chinese Newspaper ever issued under purely native direction. The chief support of the paper is of course derived from the native community; amongst whom also are to be found the guarantors and securities necessary to place it on a business andlegal footing. The projectors, basing their estimates

upon the most reliable information from the various Ports in China and Japan,from Australia, California, Singapore, Penang, Saigon, and other places frequented by the Chinese, - consider themselves justified in guaranteeing an ultimate circulation of between 3,000 and 4,000 copies. The advantages offered to advertisers are therefore unusually great, and the foreign community generally will find It to their interest to avail themselves of
